Experience

Expert Tutor Dec 2025 – Present

Lead Software Engineer

- Architected and scaled a microservices-based online tutoring SaaS on AWS using SST (IaC), ensuring high availability and performance.
- Improved backend efficiency and system reliability through database optimization, service tuning, and CI/CD automation.

Future Dev Solutions May 2024 – Nov 2025

Senior Software Engineer

- Led development of scalable POS systems, SaaS platforms, and AI-driven products serving high-traffic users.
- Reduced API latency by 30% and mentored developers while enforcing clean architecture and engineering best practices.

VisionvBird Technologies Feb 2023 – Apr 2024

Full Stack Software Engineer

- Built scalable dashboards and CRM platforms using React, Next.js, Node.js, and MongoDB.
- Enhanced performance and maintainability through component optimization and cross-team collaboration.

WittySol Sept 2022 – Feb 2023

Junior Unity Game Developer

- Developed and optimized Unity-based game features, improving gameplay performance and stability.

Codek Technologies Feb 2021 – Jul 2021

Front-end React Developer

- Built responsive React components and integrated APIs to deliver production-ready user interfaces.

Projects

Expert Tutor – SaaS Tutoring Platform | *Next.js, NestJS, AWS, Docker, RabbitMQ, Socket.io, Microservices* Live / GitHub

- Built a scalable microservices-based tutoring platform with real-time whiteboard and live communication.

FERD – AI System Design SaaS | *Next.js, PostgreSQL, Prisma, NextAuth, OpenRouter, LangGraph* Live / GitHub

- Developed AI SaaS to generate system designs and landing pages, exporting Tailwind configs and Figma tokens for production-ready UI.

AI Customer Support – TechFlow Electronics | *Python, LangChain, LangGraph, Gemini, FAISS, Pydantic, RAG* GitHub

- Created multi-agent AI chat system to classify intent, route conversations, and reduce customer churn using RAG + FAISS.

Fora (Orby POS) – Restaurant SaaS | *Next.js, React Native, PostgreSQL, Prisma, Docker* Live / GitHub

- Built a modular restaurant SaaS ecosystem with dashboard, waiter, kitchen, kiosk, booking, and staff management apps.

Technical Skills

Programming & Frameworks: JavaScript (ES6+), TypeScript, Python, React.js, Next.js, Node.js, Express.js, NestJS

Cloud, Databases, AI & Tools: MongoDB, PostgreSQL, AWS, Docker, SST, CI/CD, IaC, OpenAI, OpenRouter, Claude, Gemini, Ollama, Git, GitHub, Bitbucket, VS Code, Cursor, REST APIs, JWT/OAuth, Microservices, Clean Architecture, System Design, LangChain, and LangGraph

Education

University of Gujrat 2018-2022

BS in Software Engineering (GPA: 3.08 / 4.00) *Gujrat, Punjab*

- **Relevant Coursework:** Data Structures & Algorithms, Object-Oriented Programming, Database Systems, Operating Systems, Computer Networks, Software Engineering, Web Engineering, Software Design & Architecture
